## SUMMARY

A request to construct a 1,536 square foot storage facility and two carports, of which one will be for cart parking only. The storage building and carports will be located north of (behind) the Drayson Center adjacent to the tennis courts. The number of parking spaces will be increased as a result of the construction of the carports.

## RECOMMENDATION

Staff recommends the City Council approve Precise Plan of Design No. 15-012, based on the Findings, and subject to the Conditions of Approval (Attachment C).

## PERTINENT DATA

**Owner/Applicant:** LLUH Department of Construction and Architectural Services  
**General Plan:** Institutional  
**Zoning:** Institutional  
**Site/Shape:** Irregular shape (22.45 acres)  
**Topography:** Varied  
**Vegetation:** Varied

## BACKGROUND AND EXISTING SETTING

The applicant submitted an application on January 29, 2015. The Administrative Review Committee provided comments on the project, which include:

- Prior to building plan check, the applicant shall provide a drainage plan to the City for review and approval;

- The proposed storage building shall require sprinklers per Municipal Code Section 15.28.330;

These requirements have been included as conditions of approval (Attachment C).

### Existing Setting

The project site is located on the central portion of the City of Loma Linda.

	Zoning	General Plan	Existing Use
<b>Subject Site</b>	Institutional	Institutional	Drayson Center/LLU Campus
<b>North</b>	Railroad Property/ Multi Family Residence (R-3)	Railroad Property/ Very High Density Residential (0 to 20 du/ac)	Railroad Property/ Vacant Lot
<b>South</b>	Institutional	Institutional	LLU Campus
<b>East</b>	Institutional	Institutional	LLU Campus
<b>West</b>	Institutional	Institutional	LLU Campus

### ENVIRONMENTAL EVALUATION

The proposed façade remodel qualifies for a Class 3 exemption from CEQA pursuant to the CEQA Guidelines, Section 15303(e) as the proposed remodel is a minor alteration to an existing structure, and no expansion is proposed.

### Public Comment

Public notices for this project were posted and mailed to property owners within 300 feet of the project site on April 30, 2015. As of the writing of this report, there have been no written or oral comments received in opposition or in favor of the proposal.

### ANALYSIS

#### Project Description

The proposed storage building will be used as storage for the Drayson Center, and will also house equipment for a local community group. The carports will be used for facility parking and for carts. The creation of utility vehicle parking (increases number of full size parking by one space), and more specifically, cart parking, will free up existing parking spaces for visitors to the Drayson Center.

The project includes the following:

- One (1) 1,536 square foot storage building
- One (1) approximately 1,170 square foot (45' x 26') carport for four utility vehicles
- One (1) approximately 455 square foot (35' x 13) carport for a.t.v. (cart) parking

#### Development Standards

The proposed structures, as conditioned comply with the development standards in Chapter 17.60 - Institutional (I) Zone:

Development Standards	Permitted	Proposed	Complies
Front Yard	25' min.	~ 330'	Yes

Side Yard	10' min.	~113' and ~1,250'	Yes
Rear Yard	10' min.	~ 39'	Yes
Maximum Building Coverage	50%	(N) 3,161 sq.ft. (E) 97,590 sq.ft. Total: 100,751 Building Coverage: ~ 10%	Yes
Height	No Maximum	14.5' 10' 8'	N/A

### Architectural Design

The 1,536 square foot storage building will include a cement plaster finish, with a parapet roof, an aluminum flashing (parapet cap), and aluminum expansion joints. The building will be painted gray, with blue accents throughout the building, specifically, on the doors, and portions of the faux columns. The building will also include a darker gray horizontal band. The carports will be painted blue and will be improved with solar panels.

The building design, color, and accent colors match those found on the main Drayson Center building.

### FINDINGS

#### Precise Plan of Design Findings

According to LLMC Section 17.30.290, Precise Plan of Design (PPD), Application Procedure, PPD applications shall be processed using the procedure for a variance (as outlined in LLMC Section 17.30.030 through 17.30.060) but excluding the grounds (or findings). As such, no specific findings are required. However, LLMC Section 17.30.280, states the following:

“If a PPD would substantially depreciate property values in the vicinity or would unreasonably interfere with the use or enjoyment of property in the vicinity by the occupants thereof for lawful purposes or would adversely affect the public peace, health, safety or general welfare to a degree greater than that generally permitted by this title, such plan shall be rejected or shall be so modified or conditioned before adoption as to remove the said objections.”

In an effort to ensure that the foregoing project is consistent with the General Plan, compliant with the zoning and other City requirements, compatible with the surrounding area, and appropriate for the site, staff and the City Attorney have opted to apply the Conditional Use Permit Findings in LLMC §17.30.210 to this project, as follows:

1. *That the use applied for at the location set forth in the application is properly one for which a conditional use permit is authorized by this title.*

The project is consistent with the Institutional land use designation and is in compliance with the I-zone development standards, which permits accessory buildings and carports to a principally permitted use.

2. *That the said use is necessary or desirable for the development of the community, is in harmony with the various elements and objectives of the general plan, and is not detrimental to existing uses specifically permitted in the zone in which the proposed use is to be located.*

The project is consistent with the goals of the General plan, as the proposed project will create a relatively small, 1,536 square foot storage building, as well as carports to allow parking for full size utility vehicles as well as small carts, which in turn, frees up parking for visitors of the Drayson Center. As proposed, the storage building will match the existing Drayson Center Building and will not be detrimental to the existing use or proposed uses within the I-Zone.

3. *That the site for the intended use is adequate in size and shape to accommodate said use and all of the yards, setbacks, walls, or fences, landscaping and other features required in order to adjust said use to those existing or permitted future uses on land in the neighborhood.*

The subject parcel is adequate in size and shape to accommodate the proposed development of the site. The project will be developed on a 22.45 acre site. The lot coverage of the site (100,751 square feet) will be approximately 10 percent of the overall site, which conforms to the requirements of the I-Zone. Therefore, the project site can accommodate the proposed development which will be compatible with the existing and future land uses.

4. *That the site or the proposed use related to streets and highways is properly designed and improved to carry the type and quantity of traffic generated or to be generated by the proposed use.*

The proposed project will not generate additional traffic, as it is simply an accessory use/structure to the main use on site.

5. *That the conditions set forth in the permit and shown on the approved site plan are deemed necessary to protect the public health, safety and general welfare.*

The public health, safety and general welfare will be protected with the implementation of the Conditions of Approval for this Precise Plan of Design to insure compatibility with the surrounding uses and neighborhood.

## CONCLUSION

The proposed project, as conditioned will provide needed storage space and facility parking to the Drayson Center. The project complies with the development standards of the Institutional (I) Zone.

**CONDITIONS OF APPROVAL  
PRECISE PLAN OF DESIGN (PPD) NO. 15-012**

**COMMUNITY DEVELOPMENT DEPARTMENT**

**General**

1. Within forty-eight (48) hours of this approval of the subject project, the applicant shall deliver a payment of fifty dollars (made out to the **Clerk of the Board of Supervisors**) to enable the City to file the appropriate environmental documentation for the project. If within such forty-eight (48) hour period that applicant has not delivered to the Community Development Department the above-noted check, the statute of limitations for any interested party to challenge the environmental determination under the provisions of the California Environmental Quality Act could be significantly lengthened.
2. Within one year of this approval, the Precise Plan of Design shall be exercised by substantial construction or the permit/approval shall become null and void. In addition, if after commencement of construction, work is discontinued for a period of one year, the permit/approval shall become null and void.

**PROJECT:**

**PRECISE PLAN OF DESIGN (PPD) NO. 15-012**

**EXPIRATION DATE:**

**May 12, 2016**

3. The review authority may, upon application being filed 30 days prior to the expiration date and for good cause, grant a one-time extension not to exceed 12 months. The review authority shall ensure that the project complies with all current Development Code provisions.
4. In the event that this approval is legally challenged, the City will promptly notify the applicant of any claim or action and will cooperate fully in the defense of the matter. Once notified, the applicant agrees to defend, indemnify, and hold harmless the City, Redevelopment Agency (RDA), their affiliates officers, agents and employees from any claim, action or proceeding against the City of Loma Linda. The applicant further agrees to reimburse the City and RDA of any costs and attorneys fees, which the City or RDA may be required by a court to pay as a result of such action, but such participation shall not relieve applicant of his or her obligation under this condition.
5. Construction shall be in substantial conformance with the plan(s) approved by the Planning Commission. Minor modification to the plan(s) shall be subject to approval by the Director through a minor administrative variation process. Any modification that exceeds 10% of the following allowable measurable design/site considerations shall require the refilling of the original application and a subsequent hearing by the appropriate hearing review authority if applicable:
  - a. On-site circulation and parking, loading and landscaping;
  - b. Placement and/or height of walls, fences and structures;
  - c. Reconfiguration of architectural features, including colors, and/or modification of finished materials that do not alter or compromise the previously approved theme; and,
  - d. A reduction in density or intensity of a development project.

6. No vacant, relocated, altered, repaired or hereafter erected structure shall be occupied or no change of use of land or structure(s) shall be inaugurated, or no new business commenced as authorized by this permit until a Certificate of Occupancy has been issued by the Building Division. A Temporary Certificate of Occupancy may be issued by the Building Division subject to the conditions imposed on the use, provided that a deposit is filed with the Community Development Department prior to the issuance of the Certificate, if necessary. The deposit or security shall guarantee the faithful performance and completion of all terms, conditions and performance standards imposed on the intended use by this permit.
7. This permit or approval is subject to all the applicable provisions of the Loma Linda Municipal Code, Title 17 in effect at the time of approval, and includes development standards and requirements relating to: dust and dirt control during construction and grading activities; emission control of fumes, vapors, gases and other forms of air pollution; glare control; exterior lighting design and control; noise control; odor control; screening; signs, off-street parking and off-street loading; and, vibration control. Screening and sign regulations compliance are important considerations to the developer because they will delay the issuance of a Certificate of Occupancy until compliance is met. Any exterior structural equipment, or utility transformers, boxes, ducts or meter cabinets shall be architecturally screened by wall or structural element, blending with the building design and include landscaping when on the ground.
8. Signs are not approved as a part of this permit. Prior to establishing any new signs, the applicant shall submit an application, and receive approval, for a sign permit from the Planning Division (pursuant to LLMC, Chapter 17.18) and building permit for construction of the signs from the Building Division, as applicable.
9. The applicant shall comply with all of the Public Works Department requirements for recycling prior to issuance of a Certificate of Occupancy.
10. During construction of the site, the project shall comply with Section 9.20 (Prohibited Noises) which limit construction activities to the hours between 7:00 a.m. to 10:00 p.m. Monday through Friday, with no heavy construction occurring on weekends or national holidays. Additionally, all equipment is required to be properly equipped with standard noise muffling apparatus. Adhering to the City's noise ordinance and implementation of the above mitigation measure would ensure impacts from construction noise would be less than significant.
11. The applicant shall implement SCAQMD Rule 403 and standard construction practices during all operations capable of generating fugitive dust, which will include but not be limited to the use of best available control measures and reasonably available control measures such as:
  - a. Water active grading areas and staging areas at least twice daily as needed;
  - b. The project proponent shall ensure that all disturbed areas are treated to prevent erosion until the site is constructed upon.
  - c. The project proponent shall ensure that landscaped areas are installed as soon as possible to reduce the potential for wind erosion.
  - d. Suspend grading activities when wind gusts exceed 25 mph;

- e. Sweep public paved roads if visible soil material is carried off-site;
  - f. Enforce on-site speed limits on unpaved surface to 15 mph; and
  - g. Discontinue construction activities during Stage 1 smog episodes.
12. The applicant shall implement the following construction practices during all construction activities to reduce VOC emission as stipulated in the project Initial Study and identified as mitigation measures:
- a. The contractor shall utilize (as much as possible) pre-coated building materials and coating transfer or spray equipment with high transfer efficiency, such as high volume, low pressure (HVLP) spray method, or manual coating applications such as paint brush, hand roller, trowel, dauber, rag, or sponge.

18. Prior to issuance of any Building and/or Construction Permits, the applicant shall submit to the Community Development Department proof of payment or waiver from both the City of San Bernardino for sewer capacity fees and Redlands Unified School District for school impact fees.

**CC-2014-125 - Presentation of Audit Report for Fiscal Year 2013-2014**

Mayor Rigsby commented that prior to the City Council meeting, the Audit Committee consisting of Mayor pro tempore Dupper, himself, the City Manager and the Finance Director met with the auditors for review the Audit Report.

Finance Director Diana DeAnda introduced Terry Shea, CPA and Engagement Partner with Rogers, Anderson, Malody & Scott, the City's contract audit firm. Mr. Shea reviewed the City's responsibilities and those of the contract audit firm Rogers, Anderson, Malody & Scott. It was their opinion that the City's financial statements are fairly presented in all material respects, significant accounting policies have been consistently applied, estimates are reasonable, and disclosures are properly reflected in the financial statements. Other key points include the full implementation of GASB 64, no disagreements with management, material errors or irregularities, significant accounting issues, nor material weaknesses in internal accounting controls were discovered, and no compliance issues were identified.

Finance Director DeAnda presented her report, providing an overview of the Financial Statement which consisted of the Introductory Sections - Letter of Transmittal, GFOA Certificate of Achievement for Excellence in Financial Reporting, Principal Officers and an organization chart; the Financial Section - Independent Auditors' Report, Management's Discussion and Analysis, Basic Financial Statements, Required Supplementary Information and Supplementary Information; and the Statistical Section - Financial Trends, Revenue Capacity, Debt Capacity, demographic and Economic Information, and Operation Information. The Financial Statement includes documents relating to the City, the Loma Linda Housing Authority (special revenue fund) and the Successor Agency (private purpose trust fund). She continued, reviewing and comparing the City's 2014 net position, total cost of City services, and net revenues to 2013. This included the City's General Fund, Business-type activities (Water, Sewer and LL Connected Communities) and the Successor Agency.

Ms. DeAnda thanked everyone for contributing to the smooth audit operation, particularly City Council,

Department Heads and members of the Finance Department.

City Manager Thaipetr noted the began last year with a positive amount in the General Fund and thanked his Department Heads and their staffs for their diligence in regards to the budget.

**By common consent the Audit Report and the Comprehensive Annual Financial Report were received.**

Mayor Rigsby announced that Finance Director DeAnda was the recipient of a Certificate of Achievement for Excellence in Financial Reporting and would be receiving a plaque.

**CC-2014-126 - Public Hearing – Precise Plan of Design (PPD) NO. 14-129 – A proposal to remodel the front façade of the existing commercial buildings located at 11106-11130 Anderson Street (Invoke Rule of Necessity)**

Councilmen Rigsby, Popescu, Dailey, and Lenart declared possible conflicts of interest due to their affiliation with the Loma Linda University. The Rule of Necessity was invoked resulting in Councilmen Rigsby and Dailey abstaining and leaving the Council Chamber; Councilmen Popescu and Lenart remaining with Councilman Dupper to constitute a quorum and vote.

Mayor pro tempore Dupper chaired the item. Planner Guillermo Arreola presented the staff report into evidence. He reviewed the Vicinity Map, existing settings, site plan, the proposed façade improvements with front and rear elevations and color scheme. He indicated the Historic Commission had issued a Certificate of Appropriateness and presented their recommended Conditions of Approval:

- Submit a Lighting Plan that highlights the building's architectural features;
- Incorporate a wall mounted plaque detailing the history of each building;
- If possible, create seating areas within the public right-of-way;
- Window treatments to reflect period use;
- The applicant shall submit a detailed landscape plan within the public right-of-way in conformance with City standards;
- Coordinate with Public Works Department for rehabilitation and replacement of damaged sidewalk, curb, and gutter in conformance with City Standards.

He continued, stating that the staff report indicated these recommendations were incorporated as conditions of approval, however they were not included and therefore, any motion to approve should include the recommendations. He indicated that the applicant was aware of the Historic Commission's recommendations and had no objections. He then responded to questions from the Council, indicating that a lighting plan had not yet been submitted, and that, due to ADA accessibility requirements, the seating areas in the public right-of-way would be added if possible. He also added that the applicant is working with staff on the possible addition of trees in the public right-of-way.

Mayor pro tempore opened the public hearing; no comments were offered upon his invitation and the public hearing was closed.

**Motion by Popescu, seconded by Lenart and carried to approve Precise Plan of Design No 14-129 and the Certificate of Appropriateness, based on the Findings and subject to the Conditions of Approval as contained in the Staff Report and the**

**Conditions of Approval as recommended by the Historic Commission. Rigsby and Dailey abstained.**

Mayor Rigsby and Councilman Dailey returned; Mayor Rigsby chaired the remainder of the meeting.

**CC-2014-127 - Public Hearing – Council Bill #O-2014-10 - (First Reading, set Second reading for January 13, 2015) Amending Title 9 of the Loma Linda Municipal Code by adding Chapter 9.36 pertaining to panhandling**

Assistant City Manager Bolowich presented the staff report into evidence. He indicated that within the last few years that has been a substantial increase in aggressive solicitation or panhandling throughout the City, as well as an increase in targeted panhandling in certain areas of the City. It impacts the quality of life in the community and for those visiting the institutions and retail establishments. The proposed ordinance addresses specifically targeted panhandling and aggressive panhandling in specific locations. Regulation of panhandling involves somewhat problematic First Amendment issues, however, reasonable time, place and manner regulations that are narrowly tailored, serve a significant government interest, and leave open ample alternative avenues of communication have been found to be constitutionally permissible. The proposed ordinance has been carefully drafted to respect free speech rights.

Discussion ensued regarding:

- Enforcement prior to ordinance – outside of touching or assaulting you, there has been no real ability to enforce
- Educating the public that the ordinance is in force – the cities of San Bernardino and Redlands have similar ordinances; law enforcement has programs to address – trust in the quality of our law enforcement to make informed judgements in enforcement

City Attorney Holdaway indicated that although it is a misdemeanor under California Penal Code Section 647 to “[A] cost other person in any public place...for the purpose of begging or soliciting alms”, conviction under this statute requires prosecution by the District Attorney’s Office, whose resources are understandably directed towards higher profile crimes. California Vehicle Code Section i22520.5(a) bars solicitation and vending from freeway off ramps and from roadways, sidewalks and roadway shoulders. Therefore, without a local ordinance, Loma Linda does not have the ability to unilaterally curb aggressive panhandling, or tailor its restrictions to the City’s needs.

The Mayor opened the public hearing. No comments were offered upon invitation from the Chair.

The Mayor closed the public hearing.

**Motion by Dupper, seconded Lenart and carried unanimously to introduce Council Bill #O-2014-10 on First Reading and to set the Second Reading for January 13, 2015.**

**CC-2014-128 - Public Hearing – Council Bill #R-2014-40 declaring Stage No. 2 – Threatened Water Supply Shortage and implement provisions of Loma Linda Municipal Code section 13.040960 paragraphs A through J**

City Manager Thaipejr introduced Dennis Bolt, Treatment Plant Operator II with the City’s Public Works Department who presented the item. He reviewed the LLMC Section 13.04.960, which outlined the conservation measures to be in effect during a Stage No. 2 Threatened Water Supply Shortage. During Stage 1, the City requested voluntary conservation measures, preformed outreach activities and closely

monitored water production and usage. Because the drought continues, Stage No. 2 measures have been mandated by the Governor and the State Water Resources Control Board. It is expected that the State will continue to mandate further conservation measures as the drought continues.

Discussion ensued and, understanding the drought concerns by the State, City Council asked for additional data specifically related to Loma Linda. Mr. Bolt indicated that Loma Linda draws its water from the Bunker Hill Basin and that the Basin is at its lowest since 1954. He further indicated that declaring a Stage 2 Threatened Water Supply Shortage did not give the City the authority to impose fines, rather the focus is to educate residents on how to be more water efficient.

In response to questions, Mr. Bolt indicated that the City has been in a Stage No. 1 Normal Conditions – Voluntary Conservation Measures where all water users should continue to use water wisely, to prevent the waste or unreasonable use of water, and to reduce consumption to that necessary for ordinary domestic and commercial purposes. At this time, the State Water Resources Control Board has mandated that water agencies move to outdoor water restrictions that are not contained in a Stage No. 1, therefore the move to Stage No. 2. Loma Linda is currently the only city in the valley that does not have outdoor water restrictions. The outdoor water restrictions are designed to reduce water use during the hottest part of the day where there is a lot of evaporation.

In order to make an informed decision, City Council members' comments/questions/concerns remained:

- Moving to a Stage No. 2 puts the City that much closer to enacting regulatory penalties without more specific information as it relates to Loma Linda, i.e. water tables, trends, etc.
- What are the risks of fines imposed by the State?
- What are the criteria that would require a move to Stage No. 3 and what would be included in a Stage No. 3.
- What are the usage comparisons of Loma Linda to other cities and to State averages?
- Would like to see essential data necessary to understand and communicate with the public about what the water situation is in Loma Linda, i.e. better or worse than surrounding communities, depth of the water table in relation to previous years, etc.
- The conservation measures recommended are, for the most part, common sense and should probably be followed all the time.
- That Loma Linda should make the same gesture as other cities in the valley.

Mr. Bolt reiterated that the recommendation is not to enforce severe water restrictions, rather the ability to come into line with the State Water Resources Control Board mandates and to educate the community.

City Manager Thaipr proposed that staff would bring back more specific data to the next City Council meeting.

Mayor Rigsby opened the public hearing and invited comments from the audience.

Dick Wiley, Loma Linda, addressed the Council with questions about the Bunker Hill Basin looks like, the current levels and the capacity for the future.

No additional comments were offered upon invitation from the Chair and the public hearing was closed.

**Motion by Dupper, seconded by Dailey and carried unanimously to continue the item to January 13, 2015 with staff to provide additional information.**

**CC-2014-129- Consent Calendar**

Staff responded to questions from Councilman Dupper regarding the AT&T payment and the Lowe's payment on the Demands Register.

Councilman Popescu asked about the possibility of a closed session update regarding the requested appropriation for legal fees.

**Motion by Popescu, seconded by Dupper and unanimously carried to approve the following items:**

**Reports of Councilmen**

Mayor Rigsby expressed condolences on the deaths of Dan Smith, former Community Development Director from 1988 to 2001; and George Pendered, longtime member of the City's Budget Committee, Senior Center Board, Parks Committee and Senior Center volunteer.

Councilman Popescu noted that with gas prices going down tax revenues go down, so shop Loma Linda. He also commented on the Loma Linda Firefighters Association working with church to distribute food. He continued that the Loma Linda Lopers Holiday Classic 5K the previous Sunday was well attended.

Mayor pro tempore Dupper also commented that with the reduced gas prices and the sale of more ecofriendly vehicles, available road maintenance dollars from taxes are also reduced. The State is looking for ways to tax electric vehicles based upon miles driven.

Councilman Lenart talked about the increasing use of Campus Street pedestrian bridge and positive

comments he has heard. He also asked about the possibility of adjusting the street lights on Campus Street at the parking structure to four-way red to allow pedestrian traffic at the crosswalk to cross diagonally. City Manager Thaipejr indicated he would look at the situation. Mayor Rigsby indicated that the intent was to have pedestrian traffic use the pedestrian bridge.

**Reports of Officers**

Fire Chief Bender announced that the Loma Linda Firefighters Association Parade of Lights will be touring city streets with Santa Claus on December 21 & 22.

The meeting adjourned at 8:43p.m.

**New Business**

**CC-2015-19 - Request from Spanish Seventh-day Adventist Church, Mt. View Plaza, for waiver of fee related to a conditional use permit**

Assistant City Manager Bolowich presented the report, stating that the Municipal Code requires a Conditional Use Permit for donation boxes because there is an impact on the community due to hours of operation, parking, traffic, etc. He elaborated that it was not a one-time event, but a recurring activity that was not a church function, but the function of a company that would share the revenue from the donations with the church.

Discussion ensued with Councilmen Dupper and Lenart favoring denial of the request because the function was not solely a church function; Councilman Popescu favored granting the request; and Mayor Rigsby asked about the Conditional Use Permit Fee structure. Mr. Bolowich responded that the Conditional Use Permit fee was based upon a time and motion study, upon processing the application including site review and preparation of appropriate conditions. City Attorney Holdaway confirmed that the fee was not a profit center for the City, but rather for the review and processing of the application.

David Stanke spoke on behalf of the Spanish Seventh-day Adventist Church. City Attorney Holdaway, in response to questions, indicated that the decision was within the discretion of the City Council as long as any action was supported by consideration of the event; that waiving the fee could be an issue of a gift of public funds in which case the City Council would have the discretion as to whether or not there was a public purpose which went beyond a private benefit.

Mayor pro tempore Dupper suggested the item be continued and that the applicant provide more information.

**Motion by Popescu, seconded by Lenart and unanimously carried to continue the item to April 14 and request the applicant provide more information. Councilman Dailey absent.**

**CC-2015-20 and LLHA-2015-05 - Joint meeting with Loma Linda Housing Authority pertaining to Mid-year Budget Review**

The Housing Authority Board was called to order at 7:28 p.m. with all members present except Board Member Dailey.

City Manager Thaipejr presented the item, stating that:

- There was a surplus of \$900,000 in fiscal year 2013-2014 which was the result of the dissolution of the Redevelopment Agency in that monies that would have gone to the Redevelopment Agency were now divided among other entities, and so the City received more than expected;
- Sales tax revenue was budgeted at \$3 million, but there was a negative number because of the manner in which sales tax is received;

- Revenue relating to building permits resulted in a positive \$200,000 because after the 2014-15 Budget was approved, plans for a new VA Medical Clinic and a hotel were submitted; the same applied to Fire Plan Check, Planning and Engineering Inspection and Plan Check Fees.

Mr. Thaipetr then reviewed the expenditures, stating that less was spent in all categories in addition to the realization of cost savings with the consolidation of the Colton and Loma Linda Fire Departments, vacancies were filled by overtime at a cost savings.

He went on to say that because revenue came in early and was applied to the 2013-2014 fiscal year, the 2014-2015 mid-year budget shows a negative \$1.1 million, some of which will be returned by the State and County. The Triple Flip was anticipated to end in 2016 and so then the revenue that is currently held by the State for a period of time will come directly to the City instead of going to the State first. At the end of Fiscal Year 2014-2015, a deficit of \$870,000 was anticipated.

He then reviewed capital improvements, stating that a deficit occurred in the Sewer Fund, but because of a sewer rate increase, the deficit was expected to be eliminated; the Landscape Maintenance District also had a deficit in several of the LMD areas in that maintenance of several of the LMD areas did not include a cost-of-living increase and therefore the deficit is extinguished by the General Fund.

He added that it was anticipated that additional revenue would be received in the form of sales tax from the new Shell Gas Station, Walmart Neighborhood Store, Dollar Tree and the Transient Occupancy Tax from the hotel.

He responded to questions concerning the Park Development Fund relating to replacement/repair of the soccer fields at Leonard Bailey Park. He also indicated that replacement of playground equipment at Elmer Digneo Park would be submitted to the City Council for consideration in the near future.

He then indicated that adjustments to the appropriations would be submitted at the next meeting for approval by the City Council.

No action was required at this time.

The Housing Authority Board recessed to allow completion of the City Council Agenda.

#### **Reports of Councilmen**

Councilman Popescu reported on his trip to Sacramento regarding the Budget Trailer Bill at the request of the League of California Cities. The Bill if passed would change the rules previously set by the Department of Finance and would adversely affect the City in the amount of \$21 million; committee members had input from enough cities that they expressed dissatisfaction with the way legislation was headed and were sensitive to the dilemma of the cities. The Department of Finance (DOF) stated that elimination of RDA's brought an extra \$3 billion to the schools; however it was learned that the additional money did not go to the schools; DOF also indicated that there were over 200,000 objections to the ROPS but only 200 lawsuits were filed. It was noted that 400 RDA's were eliminated and so one-half of RDA's and cities sued. Affordable Housing Developers also spoke against the Trailer Bill because it would also negatively impact that industry.

The meeting adjourned at 8:09 p.m.

B. Billing Practices

1. A detailed description of the work performed and the costs and expenses advanced by the Law Firm will be prepared on a monthly basis as of the last day of the month and will be mailed to Client on or about the 15th of the following month, unless other arrangements are made. Payment of the full amount due, as reflected on the monthly statement, will be due to the Law Firm from Client by the 10th of the month following delivery of the statement, unless other arrangements are made. In the event that there are funds of Client in the Law Firm's Trust Account at the time a monthly billing statement is prepared, funds will be transferred from the Law Firm's Trust Account to the Law Firm's General Account to the extent of the balance due on the monthly statement and a credit will be reflected on the monthly statement. Any balance of fees or costs advanced remaining unpaid for a period of 30 days will be subject to a 1% per month service charge.

2. Hourly rate services shall be charged to Client at a minimum increment of one-tenth hour, including reasonable travel time billed portal-to-portal. When time spent by Attorney on a particular service exceeds one-tenth hour, the charge will be rounded up to the next one-tenth hour increment.

3. Client agrees to review the Law Firm's monthly statements promptly upon receipt and to notify the Law Firm, in writing, with respect to any disagreement with the monthly statement.

C. Termination of Representation

Client has the right, at any time, and either with or without good cause, to discharge the Law Firm as its attorneys. In the event of such a discharge of the Law Firm by Client, however, any and all unpaid attorneys' fees and costs owing to the Firm by Client shall be immediately due and payable.

The Law Firm reserves the right to discontinue the performance of legal services on behalf of Client on a particular matter upon the occurrence of anyone or more of the following events:

1. Upon order of a court of law requiring the Law Firm to discontinue the performance of legal services;

2. Upon a determination by the Law Firm in the exercise of its reasonable and sole discretion, that state or federal legal ethical principles require it to discontinue the performance of legal services;

3. Upon a failure of Client to perform any of Client's obligations with respect to the payment of the Law Firm's fees, costs or expenses as reflected on the monthly bill; or,

4. Upon failure to cooperate with Law Firm as described in paragraph E.

In the event that the Law Firm ceases to perform legal services for Client, Client agrees that it will promptly pay to the Law Firm any and all unpaid fees and costs advanced. Further,

the Client agrees that, with respect to any litigation where the Law Firm has made an appearance in a court of law on its behalf, Client will promptly execute an appropriate Substitution of Attorney form. Any termination of Law Firm's representation on such a matter may be subject to approval by the applicable court of law.

D. Possible Third Party Conflicts

The Firm has a number of attorneys. The Firm may currently or in the future represent one or more other clients in matters involving Client. The Firm undertakes this engagement on the condition that the Firm may represent another client in a matter in which the Firm does not represent Client, even if the interests of the other client are adverse to those of Client (including appearance on behalf of another client adverse to Client in litigation or arbitration), provided the other matter is not substantially related to the Firm's representation of Client and in the course of representing Client attorneys of the Firm have not obtained confidential information of Client material to the representation of the other client ("Permitted Adverse Representation"). Client's consent to this arrangement is required because of its possible adverse effects on performance of the Firm's duties as attorneys to remain loyal and available to those other clients and to render legal services with vigor and competence. Also, if an attorney does not continue an engagement or must withdraw therefrom, the client may incur delay, prejudice or additional cost such as acquainting new counsel for the matter. Client agrees not to seek to disqualify the Firm from representing such other client in any Permitted Adverse Representation.

E. Client Cooperation

Client understands and agrees that, in order for the Law Firm to represent Client effectively, it is necessary for Client to assist and cooperate with the Law Firm during this engagement. Client agrees to: (1) make its employees and officials available to discuss issues as they arise; (2) attend and participate in meetings, preparation sessions and court proceedings, review drafts of documents, and perform other activities in connection with the representation; and (3) provide complete and accurate information and documents to us on a timely basis. Noncooperation will be grounds for the Law Firm's withdrawal from representing Client on a particular matter. It is essential that Client and the Law Firm maintain open communications.

F. Arbitration: Waiver of Jury Trial

The parties agree that all disputes which arise between the Client and the Law Firm, whether financial or otherwise regarding the attorney-client relationship, shall be resolved by binding arbitration. Each side shall bear their own costs and attorneys' fees. The parties agree to waive their right to a jury trial and to an appeal.

G. Protection of Client Confidences - High Tech Communication Devices

The Law Firm is aware of its important obligation to preserve the secrets and confidences of its clients which it holds in precious trust for them. To that end it is important that Client and the Law Firm agree from the outset what kinds of communications technology the Law Firm should employ in the course of representing Client. For example, the exchange of documents and other information using email or other types of electronic communications involves some risk that information will be retrieved by third parties with no right to see it. --

## **RECOMMENDATION**

It is recommended that the City Council approve an expenditure of \$70,250 from Park Fund to install a playground at Elmer Digneo Park.

## **BACKGROUND**

Elmer Digneo Park is a community park located on the east side of Anderson Street, north of the UPRR tracks. Loma Linda Academy is located on the west side of Anderson Street opposite the park. The park land is leased to the City by Loma Linda University for a nominal amount annually. It currently does not enjoy the benefits of an American with Disabilities Act (ADA) accessible playground

## **ANALYSIS**

Staff solicited playground designs from previously approved vendors of playground equipment. Two (2) designs were submitted for review and consideration. The Parks and Beautification Committee unanimously approved forwarding a recommendation to approve the design provided by Miracle Recreation Equipment Company, (Miracle) of Corona. Miracle is providing design and equipment only for a cost of \$25,033.94. The Fibar Group LLC has submitted a cost of \$13,706.36 to supply the engineered wood fiber, complete, for safety zones under the swing and slide landing areas. Ortco, Inc of Orange, CA, a properly licensed installer of playground equipment, has provided a cost proposal of \$33,507.00 to prepare the site and install the equipment, complete. Staff will provide inspection services.

## **I. OVERVIEW**

---

### **A. INTRODUCTION**

The City of Loma Linda (“City”) annually levies and collects special assessments in order to maintain the improvements within the City of Loma Linda Landscaping Maintenance District No. 1 (“District”). The District was formed in January 1976 with several annexations to the District approved in subsequent years. Annual assessments were established pursuant to the *Landscape and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the “1972 Act”).

This Engineer’s Annual Levy Report (“Report”) describes the District, any annexations or changes to the District, and the proposed assessments for Fiscal Year 2015/2016. For the purpose of this Report, the word “parcel” refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the County of San Bernardino (“County”) Assessor’s Office. The County Auditor/Controller uses APN’s and specific Fund Numbers to identify properties on the tax roll assessed for special district benefit assessments. The proposed assessments are based on the historical and estimated costs to maintain the improvements that provide special benefit to properties within the District. The costs of improvements and the annual levy include budgeted expenditures, deficits, surpluses, revenues, and reserves. Each parcel is assessed proportionately for only those improvements provided and for which the parcel receives special benefit. Following review of the Report and consideration of public comments and written protests at a public hearing, the City Council (“Council”) may order amendments to the Report or confirm the Report as submitted. Following approval of the Report, the Council may order the levy and collection of assessments for Fiscal Year 2015/2016 pursuant to the 1972 Act. In such case, the assessment information will be submitted to the County Auditor/Controller, and included on the property tax roll for each benefiting parcel for Fiscal Year 2015/2016.

### **B. COMPLIANCE WITH CURRENT LEGISLATION**

On November 5, 1996, California voters approved Proposition 218. This Constitutional amendment was the latest in a series of initiatives altering the revenue-raising discretion of California’s local agencies. The provisions of Proposition 218 are set forth in the California Constitution Articles XIIC and XIID of the California Constitution.

In Article XIID Section 2 (b), "Assessments" are defined as:

*"...any levy or charge upon real property by an agency for a special benefit conferred upon the real property. 'Assessment' includes, but is not limited to, 'special assessment,' 'benefit assessment,' 'maintenance assessment,' and 'special assessment tax.'"*

Article XIID requires that beginning July 1, 1997, new and existing assessments (with some exceptions) conform to new substantive and procedural requirements.

Parcels included in the original District formation and each subsequent annexation was conditioned to install landscape improvements before the development could proceed. In order to preserve the investment in the landscape improvements, the developer was required to form a separate 1972 Act Maintenance District or to be annexed into the District. Each developer who at the time owned the parcels subject to the assessment, agreed to either the formation or annexation requirement and the assessments being imposed. Subsequent owners of parcels were also made aware through title reports and Department of Real Estate "White Paper" reports that the parcels were in the District and subject to the assessments. Purchase of the parcel(s) was also in agreement to be subject to the assessments. Therefore, the assessments adopted for the District prior to the passage of Proposition 218 are exempt from the provisions of Article XIID Section 4 of the Constitution, provided the assessments are not increased above the maximum assessment rates in effect prior to Proposition 218. Subsequent increases, if any, will be subject to the procedural and approval process of Section 4 of Article XIID.

New or increased assessments must satisfy certain noticing and meeting requirements by law. The Brown Act defines the terms "new or increased assessment" to exclude certain conditions. These certain conditions include "any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed." This definition was later confirmed by Senate Bill 919 (the proposition 218 implementing legislation).

## B. DESCRIPTION OF THE DISTRICT IMPROVEMENTS AND SERVICES

Landscaping and irrigation improvements have been completed along the Barton Road frontage of Parcel Map 958 (Original) and the development that was the basis of the original district. There have been seventy-five (75), subsequent annexations to the District, which are shown on the map included within this Report. Only those annexations having improvements to be maintained and serviced by the District are addressed within this Report.

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the ornamental structures, landscaping and appurtenant facilities, including repair, removal or replacement of all or part of any of the ornamental structures, landscaping or appurtenant facilities; providing for the life, growth, health, and beauty of the landscaping, including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning, sandblasting and painting of walls and other improvements to remove or cover graffiti. Servicing means the furnishing of electricity for the lighting and operation of the ornamental structures, landscaping, and appurtenant facilities, and water for the irrigation and control of the landscaping and the maintenance of any of the ornamental structures, landscaping, and appurtenant facilities

Annexations 30, 32, and 44 have no landscaping and are not assessed.*

Landscaped areas are portions of easements or road rights-of-way previously granted to the City, and the City has determined that properties within the District receive special benefit from the maintenance and servicing of these improvements.

The plans and specifications for the landscaping and irrigation improvements within each annexation have been prepared by the developer and have been approved as part of the improvement plans for the various developments. The plans and specifications for the landscaping and irrigation are in conformance with the requirements of the City Council conditions of approval of said Parcel Maps, Tracts, and Planned Parcel Developments.

Plans and specifications for the improvements for the original District and each subsequent annexation are voluminous and are not bound in this report but are on file in the office of the City Clerk and the City Engineer where they are available for public inspection. Said plans and specifications are by reference incorporated and made part of this report.

### **III. METHOD OF APPORTIONMENT**

---

#### **A. GENERAL**

Pursuant to the 1972 Act and the provisions of Article XIID, the costs of the District are apportioned by a formula or method which fairly distributes the net amount to be assessed among the assessable parcels in proportion to the special benefits received by each such parcel from the improvements and a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Article XIID requires that only special benefits are assessable and that the agency shall separate the general benefit from special benefit. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit. Each parcel within the District receives special benefits from the improvements due to the close proximity of the landscaping improvements to each parcel.

#### **B. SPECIAL BENEFIT**

The method of apportionment (method of assessment) is based on the premise that each assessed parcel receives special benefit from the improvements maintained, serviced and funded by the assessments and specifically, the landscape and irrigation improvements installed in connection with the development of these parcels. The desirability of properties within the District is enhanced by the presence of well-maintained landscaping improvements in close proximity to those properties.

The annual assessments outlined in this Report are based on the estimated costs to provide necessary services, operation, administration, and maintenance required to ensure the satisfactory condition and quality of each improvement. The District improvements include various landscaped areas and accompanying appurtenances that provide special benefits to various properties within the District.

The special benefits associated with the landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the District providing a positive representation of the area.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance and dust and debris control.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The preceding special benefits contribute to a special enhancement and desirability of each of the assessed parcels within the District.

### **C. GENERAL BENEFIT**

In addition to the special benefits received by the parcels within the proposed annexation, there are incidental general benefits conferred by the improvements within the District.

Each of the following constitutes incidental general benefits conferred by the District improvements:

- The proper maintenance of landscaping and appurtenant facilities within the District will control dust from blowing onto properties outside of the District boundaries.

- The control of erosion will reduce runoff into the City's storm drain system.
- The proper maintenance of landscaped areas will facilitate proper drainage of properties within the District and also reduces the potential for flooding damage to properties on the downward slope from the District.
- The spraying and treating of landscaping within the District for disease reduces the likelihood of insect infestation and other diseases spreading to landscaping located throughout other properties within the City.
- The proper maintenance of landscaping and ornamental structures provides a positive visual experience to persons passing by the District boundaries.

The total benefits are thus a combination of the special benefits to the parcels within the District and the general benefits to the public at large and to adjacent property owners. The portion of the total landscape maintenance and servicing costs that are associated with general benefits will not be assessed to the parcels in the District, but will be paid from other City Funds.

#### **D. SELF MAINTENANCE OR NO LANDSCAPING IMPROVEMENTS**

The cost allocation/special benefit nexus to developed parcels in each annexation area is similar and appropriate for most parcels. In addition, the landscape improvements in some annexations are currently maintained by the property owners and are proposed to be maintained by the property owners this coming fiscal year if approved by the City Council. Also, City, County and Redevelopment Agency annexations are exempt and are not assessed.

The following is a list of annexations within this category and their status.

*\*Annexations 11, 12, 47, and 49 were combined with other annexations and are no longer considered as separate annexations. Annexations 63, 64, 66, 67, 68 and 69 have homeowners associations that will maintain most or all common area landscaping within the interior of the respective developments. Annexations 30, 32, and 44 have no landscaping and are not assessed.*

Property owners having parcels within the District who are allowed to provide for their own landscape maintenance receive no assessment associated with the maintenance costs because these costs are paid directly to their own employees or contractor for this maintenance. They may also pay direct water costs to keep the landscaping alive and well. However, they will receive special benefit and be assessed for the costs associated with the Report and District administration to ensure that the required landscaping will be maintained to the standards established by the City and anticipated when the improvements were initially required.

Since this special benefit is associated with each annexation area, the assessments are based on the number of units of assessment for each annexation area. Thus, the assessments are the same to administer and to prepare the Report for the annexation areas providing their own landscape maintenance.

## E. ASSESSMENT METHODOLOGY

The costs to provide maintenance and servicing of the improvements within or adjacent to the original area and each annexation area represent a zone of benefit (“Zone”) and provide a distinct and special benefit to each parcel in the Zone. The costs to provide maintenance and servicing of the improvements for each Zone are determined and are fairly and equitably distributed among each assessable parcel in the Zone based upon the estimated special benefit received by each parcel. The costs of the Report and District administration are fairly and

equitably distributed to all Zones, including those that have no improvements or that are fully or partially self-maintained.

Assessable parcels within each Zone are determined to receive the same special benefit from the improvements due to their similarity in size and use and their similar proximity to the improvements. Therefore, each assessable parcel in a Zone is assessed an equal amount.

For Fiscal Year 2015/2016 the assessment rate within each Zone will be the Balance to Levy divided by the number of assessable parcels in the Zone.

## **F. ASSESSMENT RANGE FORMULA**

An assessment range formula for the District assessments has been confirmed through property owner ballot proceedings in compliance with Article XIID, except those existing assessments within the District, such as the **Original District and Annexations 1-50**, which qualified as exempt assessments pursuant to Article XIID, Section 5 of the Constitution and did not require a ballot proceeding under the provisions of Section 4. The purpose of establishing an assessment range formula is to provide for reasonable increases and inflationary adjustment to the assessment amounts without requiring costly noticing and mailing procedures, which would be added to the District costs and assessments. The assessment range formula shall be applied to future assessments within the District. The following describes this assessment range formula:

Wherein, if the proposed assessment (levy per unit or rate) is less than or equal to, the prior year's maximum assessment plus the adjustments described in the following, then the proposed assessment is not considered an increased assessment.

If the proposed assessment is less than the maximum assessment approved in the previous fiscal year adjusted by a percentage no greater than the annual percentage increase of the Consumer Price Index ("CPI"), the assessment shall not be considered as an increase.

For **Annexations 51 through 73**, the maximum assessment amount allowed for each fiscal year shall be adjusted annually by an amount equal to the percentage increase of the CPI for the Los Angeles-Riverside-Orange County Area for Urban Consumers, as developed by the U.S. Bureau of Labor Statistics, for March of each year and the CPI for March of the previous fiscal year. The CPI adjustment for Fiscal Year 2015/2016 is 0.51%. Such assessment adjustments shall not be considered an increase in assessment and shall not require that a notice or Assessment Ballot be sent to property owners within these annexation areas. The base assessment amount will be the amount originally noticed and approved by the property owners at the time of formation and adjusted annually to

establish the new maximum assessment amounts. An increased assessment that exceeds this adjusted maximum assessment amount will require property owner balloting approval before the increase may be imposed.

## IV. DISTRICT BUDGETS

---

### A. DESCRIPTION OF BUDGET ITEMS

The following is a brief description of the costs associated with the improvements and services funded through the District.

#### DIRECT COSTS:

**Maintenance** — Includes regularly scheduled labor and general maintenance cost including wages, salaries, benefits and contract services required to properly maintain and ensure the satisfactory condition of the improvements and appurtenant facilities.

**Utilities** — The furnishing of water and electricity required for the operation and maintenance of the improvements and facilities.

**Capital Repairs/Improvements** — This item includes repairs to the improvements and facilities that are not included in the yearly maintenance costs. This may include repair of damaged amenities due to vandalism, storms, etc. Also included may be planned upgrades or replacements of the improvements and equipment that provide a special benefit to the District. Includes materials, supplies (e.g. pipe, fertilizer, insecticides, fuel, cleaning material etc.), and equipment (e.g. communication, small tools, rentals, machinery etc.) required to operate, maintain and ensure the satisfactory condition of the improvements and appurtenant facilities.

#### ADMINISTRATIVE COSTS:

**Administration/Operations/Insurance** — May include the administrative and professional service costs associated with the coordination of District services and operations including response to public concerns and education, procedures associated with the levy and collection of assessments, the costs of contracting with professionals to provide administrative, legal or engineering services specific to the District, and the cost for the County to collect assessments on the property tax bills.

**Professional Services** — The cost of contracting with professionals to provide services specific to the levy of assessments and annual administration of the District.

## OTHER BUDGET ITEMS:

**General Fund Contributions** — If the amount that can be collected through the annual assessments is not sufficient to cover the total annual direct costs and administrative costs, a General Fund contribution from the City may be necessary to cover the shortfall.

**Credit/Adjustments/HOA Adjustments** — Miscellaneous credits to the levy, such as the application of excess District funds, etc. Currently, Annexation 15b receives a \$10 annual credit.

**Total Number of Parcels** — The total number of parcels within the District.

**Total Parcels Levied** — The total number of parcels within the District that are assessed. Non-assessable lots or parcels include properties that have been determined to receive no special benefits from the improvements and may include land principally encumbered by public or other rights-of-way or easements, common areas, and/or parcels that have restricted use or development potential.

**Levy per Parcel (shown in Appendix “A”)** — This amount represents the assessment rate being applied to each assessable parcel in each area. The Levy per Parcel is the result of dividing the Balance to Levy per area by the sum of the number of assessable parcels.

## B. ASSESSMENT DETAILS

### Credit/Adjustments to Levy Amounts

Throughout the District there are certain annexations that receive different considerations in determining their annual assessments.

**Annexations 3, 7, 8, 9, 13, 14, 15b, 25, 28, 30, 36a, 40, 43, 45, 50, 57, 58, 60, 65, and 73** are self maintained areas, and assessments are reduced to reflect only administrative costs associated with the area.

**Annexations 63, 64, 66, 67, 68 and 69** are areas maintained by a Homeowner's Association, and assessments are reduced to reflect only the improvement costs paid by the City and/or administrative costs associated with the area.

**Annexation 15B** received credits as a result of costs being lower than estimated for maintenance and water in past years. The amount of available credit at the end of Fiscal Year 1996/1997 was \$2,288.53. The following table shows the amounts used to credit the levy for each subsequent fiscal year.

Upon approval of the Engineer's Annual Levy Report and confirmation of the assessments, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll in Fiscal Year 2015/2016. If the parcels or assessment numbers within the District and referenced in this Report are re-numbered, re-apportioned or changed by the County Assessor's Office after approval of the Report, the new parcel or assessment numbers with the appropriate assessment amount will be submitted to the County Auditor/Controller. If the parcel change made by the County includes a parcel split, parcel merger or tax status change, the assessment amount submitted on the new parcels or assessment numbers will be based on the method of apportionment and levy amount approved in this Report by the City Council.

## **I. OVERVIEW**

---

### **A. INTRODUCTION**

The City of Loma Linda (“City”) annually levies and collects special assessments in order to provide and maintain the improvements within the Loma Linda Street Light Benefit Assessment District No. 1 (“District”). The District has been formed and annual assessments are established pursuant to the Landscape and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “1972 Act”) and the California Constitution Article XIID (“Article XIID”).

The Engineer’s Annual Levy Report (“Report”) describes the District, any changes to the District, and the proposed assessments for Fiscal Year 2015/2016. For the purposes of this Report, the word “parcel” refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the County of San Bernardino (“County”) Assessor’s Office. The County Auditor/Controller uses APNs and specific Fund Numbers to identify properties on the tax roll assessed for special district benefit assessments. The proposed assessments are based on the historical and estimated costs to maintain the improvements that provide special benefit to properties within the District. The improvements within the District and the corresponding costs that make up the annual levy and that are budgeted and assessed to the District include budgeted expenditures, deficits, surpluses, revenues, and reserves. Each parcel is assessed proportionately for only those improvements provided and for which the parcel receives special benefit.

Following review of the Report and consideration of public comments and written protests at a noticed public hearing, the City Council may order amendments to the Report or approve the Report as submitted. Following approval of the Report, the Council may order the levy and collection of assessments for Fiscal Year 2015/2016 pursuant to the 1972 Act. In such case, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll for each benefiting parcel for Fiscal Year 2015/2016.

### **B. COMPLIANCE WITH CURRENT LEGISLATION**

On November 5, 1996, California voters approved Proposition 218. This Constitutional amendment was the latest in a series of initiatives altering the revenue-raising discretion of California’s local agencies. The provisions of Proposition 218 are set forth in the California Constitution Articles XIIC and XIID.

In Article XIID Section 2 (b), "Assessments" are defined as:

*"...any levy or charge upon real property by an agency for a special benefit conferred upon the real property. 'Assessment' includes, but is not limited to, 'special assessment,' 'benefit assessment,' 'maintenance assessment,' and 'special assessment tax.'"*

Street lights and traffic signals are installed on and for street purposes and are maintained and serviced to allow the street to perform to the standards it was designed. Assessments for the maintenance and servicing of streets include street lights and traffic signals, and pursuant to the provisions of Article XIID Section 5(a), existing assessments for street maintenance are exempt from the procedural requirements of Article XIID Section 4 until such time that the assessments are increased.

It is the understanding of the Assessment Engineer that the assessments were to fund a degree of maintenance and servicing, which can fluctuate from year to year. As long as the maximum assessment for any prior year is not exceeded in future years, assessment balloting is not required.

## ***II. DESCRIPTION OF THE DISTRICT***

---

### **A. BOUNDARIES OF THE DISTRICT**

The boundaries of the District are coterminous with the City as shown on the map entitled, "Diagram Street Light Benefit Assessment District No. 1, City of Loma Linda, California" which is on file in the Office of the City Clerk, City of Loma Linda, California.

### **B. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the

maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.

- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

## **C. DESCRIPTION OF THE DISTRICT IMPROVEMENTS AND SERVICES**

The improvements in the District are for maintenance and servicing of street lights, traffic signals and intersection lighting. They are an integral part of the entire street, the same as curb, gutters, pavement, signage and striping. Taken as a group, they are the elements that provide a safe route for motorists.

Street lights and traffic signals are installed to make streets safer. The traffic signals assign the right-of-way for motorists. Street lights are installed to provide better visibility for drivers. One hundred (100) percent of the illumination from the lights is directed to the street, ninety (90) percent on the street side of the curb and ten (10) percent behind the curb. The spacing of the lights is based on the speed of the vehicles and the natural ability of the motorists' eyes to adjust to lighter and darker areas.

The existing street light and traffic signal improvements are owned either by the Southern California Edison Company, the State of California Department of Transportation, or the City. Facilities owned by either the Southern California Edison Company or the State of California Department of Transportation were constructed in accordance with plans and specifications on file with the respective owners. Facilities constructed for or by the City are on file in the City offices. Reference is hereby made to said plans and specifications and they are by reference made a part of this report to the same extent as if said plans and specifications were attached hereto.

Although the 1972 Act allows for the construction of improvements and the assignment of the benefit assessments associated therewith, it is not anticipated that any new improvements will be installed nor benefit assessments made for the installation of improvements for Fiscal Year 2015/2016.

## ***III. METHOD OF APPORTIONMENT***

---

### **A. GENERAL**

Pursuant to the 1972 Act and the provisions of the California Constitution, the costs of the District are apportioned by a formula or method that fairly distributes the net amount to be assessed among all assessable parcels in proportion to the special benefit to be received by each such parcel from the improvements. Article XIID requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Article XIID also requires the agency to separate the general benefit from special benefit and that only special benefit is assessable.

Each parcel within the District receives special benefit from the improvements due to the close proximity of the lighting improvements to each parcel. The proposed assessments for Fiscal Year 2015/2016 are at the same rate as in the

prior Fiscal Year 2014/2015. Since the assessments are not new or increased, and are for street lights, they are currently exempt from the procedures and approval process of Article XIID.

The cost to provide maintenance and servicing of the improvements within the District is fairly and equitably distributed among each assessable parcel based upon the estimated special benefit received by each parcel.

## **B. BENEFIT ANALYSIS**

The City Council, in determining the necessity of forming the District, took into account the increasing cost of providing services to the residents, businesses, and properties located within the City. The benefits of street lighting conferred upon the property within the District include the convenience, safety, and security of property, improvements and goods. Specifically:

1. Enhanced deterrence of crime and the aid to police protection.
2. Increased nighttime safety on streets through enhanced visibility.
3. Improved sense of security and safety for pedestrians, motorists and property owners.
4. Improved ingress and egress to property.
5. Reduced vandalism, other criminal acts and damage to improvements or property.
6. Reduced personal property loss.

The preceding special benefits contribute to a special enhancement and desirability of each of the assessed parcels within the District.

## **C. METHODOLOGY**

Assessments proposed for individual lots within the District will be for special benefit received and will be determined based upon four benefit zones.

1. Residential parcels within the urban area having a minimal level of benefit.
2. Residential parcels within the urban area having a higher than minimal level of benefit.
3. Non-Residential land use within the urban area.
4. Rural land use outside the urban area.

The benefit to be received by each zone varies. There are residential properties within the urban area that have fewer street lights than other urban residential areas and thus receive less benefit. There are rural areas that have even fewer residential street lights than even the minimum urban residential areas and thus receive less benefit. The non-residential properties are generally sited along the

major arterial streets and receive a higher level of street lighting and thus receive the highest level of benefit. These same levels of benefit are also reflected in the maintenance and servicing of traffic signals.

The benefit to properties for traffic signals and intersection and highway safety lighting on the City's major streets is a benefit to the parcels within the City. The parcels share equally the cost of the signal and highway safety lights. Thus, the total benefit to each parcel within the District is a combination of the traffic signal and highway safety lighting, plus the various levels of lighting for the residential (minimal), residential (standard), non-residential and rural zones as described above.

Properties within the District have been categorized into one of the four benefit zones. Each property has been given 1 Unit of Benefit subsequent to its categorization. Please refer to Section B "Assessment Calculation" of this report for further particulars on assessments per 1 Unit of Benefit.

For a detailed explanation of the basis for assessing properties for street lights and traffic signals, refer to Section 6, "Assessment Basis," in the Fiscal Year 1982/1983 Engineer's Report for the District.

The City Council has determined that street lights and traffic signals are an integral part of the quality of life within the City and that the parcels within the City, except publicly and government owned ones, benefit to some degree from these systems.

Railroad, gas, water or electric utility or electric line rights-of-way included within the District will not be assessed for said benefit. In addition, public schools, government agencies, and parcels with no road frontage will not be assessed.

## ***IV. DISTRICT BUDGETS***

---

### **A. ESTIMATED MAINTENANCE AND SERVICING COSTS**

The maintenance and servicing of existing street light and traffic signal facilities is performed by either the Southern California Edison Company, the State of California Department of Transportation or by the City through its own forces or contract personnel. The portion of the street light system owned and operated by the Southern California Edison Company is billed to the City on a monthly flat rate or metered basis. These flat rates or metered amounts vary based upon the type and size of luminaries and actual metered amounts.

A portion of the street lighting system is owned and maintained by the City. Electrical energy is purchased from the Southern California Edison Company at metered locations. Again, as with the Edison-owned lights, there are frequent

increases in the electrical energy costs; however, with the City-owned system, these increases are termed “fuel cost adjustments”.

## **B. DESCRIPTION OF BUDGET ITEMS**

The following is a brief description of the costs associated with the improvements and services funded through the District.

### **DIRECT COSTS:**

***Maintenance*** — Includes regularly scheduled labor and general maintenance cost including wages, salaries, benefits and contract services required to properly maintain and ensure the satisfactory condition of the improvements and appurtenant facilities.

***Utilities*** — The furnishing of water and electricity required for the operation and maintenance of the improvements and facilities.

***Capital Repairs / Improvements*** — This item includes repairs to the improvements and facilities that are not included in the yearly maintenance costs. This may include repair of damaged amenities due to vandalism, storms, etc. Also included may be planned upgrades or replacements of the improvements and equipment that provide a special benefit to the District. Includes materials, supplies, and equipment required to operate, maintain and ensure the satisfactory condition of the improvements and appurtenant facilities.

### **ADMINISTRATIVE COSTS:**

***Administration/Operations/Insurance*** — May include the administrative and professional service costs associated with the coordination of District services and operations including response to public concerns and education, procedures associated with the levy and collection of assessments, the costs of contracting with professionals to provide administrative, legal or engineering services specific to the District, and the cost for the County to collect assessments on the property tax bills.

***Professional Services*** — The cost of contracting with professionals to provide services specific to the levy of assessments and annual administration of the District.

### **OTHER BUDGET ITEMS:**

***Credit/Adjustments*** — If there is a surplus at the end of any fiscal year, it shall be deposited in the District account. If there is a deficit at the end of any fiscal year, the shortfall will be covered by any surplus funds in the District account.

However, if there are no surplus funds in the District account, the shortfall will be made up through a General Fund contribution.

***Total Parcels Levied*** — The total number of parcels within the District that are assessed. Non-assessable lots or parcels include properties that have been determined to receive no special benefits from the improvements and may include land principally encumbered by public or other rights-of-way or easements, common areas, and/or parcels that have restricted use or development potential.

## C. ASSESSMENT CALCULATIONS

For detailed assessment calculations, refer to Section 7, "Assessments," in the Fiscal Year 1982/1983 Engineer's Report for the Street Light Benefit Assessment District No. 1.

The total assessment necessary to maintain and service the street lights and traffic signals in Fiscal Year 2015/2016 is estimated to be \$391,100. This cost minus any fund balance credit will be distributed among 5,561 parcels this year. The estimated balance to levy for Fiscal Year 2015/2016 is \$342,395.

### Summary of Proposed Annual Assessments:

Benefit Zones	FY 2015/2016 Assessment Per Units of Benefit	FY 2015/2016 Units of Benefit	FY 2015/2016 Levy Amount <sup>(1)</sup>
Residential (Surcharge)	\$56.14	3,889.00	\$218,328.46
Residential Condo (Surcharge)	\$56.14	421.34	23,653.60
Residential (Minimal)	\$38.00	649.00	24,662.00

Rural	\$17.88	69.00	1,233.72
<b>Total</b>		<b>5,633.34</b>	<b>\$342,395.49</b>
Note: Slight variances due to rounding.			

Per parcel assessments are based on the number of 100 foot increments of front footage that a parcel has within its benefit zone. Developments with private streets, such as condominiums, have assessments based on the number of 100 foot increments of front footage along the perimeter of the development divided by the number of feet within the development. Front footage increments are rounded up to the nearest 100 feet.

For example: A parcel with 267 front linear feet within the Residential Surcharge area is assessed 300 ft. / 100 ft. x \$56.14 per ft. = \$168.42.

Individual assessments for individual parcels within the District are tabulated in Appendix B of this Report.

The City Council will hold a public hearing to consider confirming, or modifying and confirming, the foregoing assessments for Fiscal Year 2015/2016. These assessments, if confirmed, will be transmitted to the San Bernardino County Auditor and recovered through taxes paid by property owners as is required by the 1972 Act.

*Slight variances may exist in the District Budget Totals due to rounding.*

Non-assessable lots or parcels may include government owned land, public utility owned property, land principally encumbered with public rights-of-way or easements and dedicated common areas. These parcels will not be assessed.

A listing of parcels within the District, along with the proposed assessment amounts, has been submitted to the City Clerk and is attached herein.

Upon approval of the Engineer's Annual Levy Report, and confirmation of the assessments, the assessment information will be submitted to the County Auditor/Controller, and included on the property tax roll in Fiscal Year 2015/2016. By City Council  
Date \_\_\_\_\_

## **RECOMMENDATION**

It is recommended that the City Council approve appropriation of funds to the Miscellaneous Grant Fund in the amount of \$673,000 to allow for incremental payments on the work performed.

## **BACKGROUND**

The City was awarded a grant from the Small Business Administration in the amount of \$900,000.00 to construct a fiber optic line from Loma Linda to Grand Terrace. The contract was awarded on July 22, 2014 and construction is scheduled to be completed prior to September 1, 2015. Although the grant approval is for \$900,000, only a portion will be spent and received in Fiscal Year 2015.

## **ANALYSIS**

The funds will be appropriated into the Miscellaneous Grant Fund. Funds will be dispersed as project milestones are completed and reimbursements will be submitted to Small Business Administration to process the payments.

## **ENVIRONMENTAL**

There is no environmental impact

## **FINANCIAL IMPACT**

Recognize an increase of \$673,000 in revenue account 37-9334 and a corresponding increase in expenditure account 37-5360-8500.
