SECTION 3 – SUPPLEMENTAL REQUIREMENTS

- Plot Plan/Sign Plans/Elevations for Planning:** Submit 3 copies of the plot plan, sign plan and elevations with the following information:
 1. Indicate sign location, height and total area size, as well as the proposed colors, type, and style of the sign. Dimensions must be shown.
 2. Show the elevation above final grade level, the method of illumination and materials for the proposed sign.
 3. Indicate all existing signs on site or on the building at the time of making such application. Build frontage dimensions required for most signs.
- Building Permit Plans:** Most signs require a separate building permit. The permit may require other information such as structural details and calculations that the Community Development Department and Building Division may deem reasonable and necessary to insure safety of construction and compliance with the intent of the Building Code. For questions about these requirements, call the Building & Safety Division at 909-799-2836.
- Licensed contractor:** The person erecting the sign must be a licensed contractor and provide proof of other licenses and insurance required to obtain a building permit.
- Illustration:** If applicable, submit photos or an illustration of all existing signs as well as the location where the sign is proposed to be located.
- Comprehensive Sign Programs:** If submitting a Comprehensive Sign Program, the application will require additional documents such as mailing labels of surrounding property owners, an agent authorization form, and more. Details found in Chapter 17.18 “Signs” of the LLMC. Please contact the planner for a list of requirements prior to submitting application.

NOTE: Approval of new signs require that all existing signs conform or be in conformance with the current sign ordinance or applicable master sign program. Sign requirements and standards for all zones are found in Title 17 Zoning, Chapter 17.18 "Signs" of the Loma Linda Municipal Code. <http://qcode.us/codes/lomalinda/>
